## LP-Series Press

# LP-Series Laundry Press

SEVE LP-Series laundry presses are available with a variety of buck shapes including, legger, utility, body, collar & cuff and mushroom. All models feature a high-quality, corrosion resistant and polished stainless-steel upper buck.

In addition, all models are pneumatically controlled for efficient and easy operation, as well as being equipped with vacuum extraction as part of delivering a high quality finish.

A number of options are available to enhance the performance and functionality of your press, including stainless steel work surface and twin-cylinder pneumatic configuration, which delivers quicker and more precise operation.
