Industrial Steam Iron

NT500 Industrial Steam Iron

The SEVE NT500 is an electrically-heated, gravity-feed, hand-operated steam iron. It generates steam without the use of an expensive steam boiler and instead uses a 3.5-litre water bottle suspended above the ironing area to send water to the heated iron where the steam is generated. This simple system delivers a reliable and affordable ironing solution in any laundry without compromising on a professional finish.

Key Features

- Intelligent steam distribution design for focussed steam output.
- Deep formed base affords efficient heat retention and energy efficiency.
- Thermodial affords quick and easy adjustment between 5 heat settings.
- Anodised aluminium base delivers effective ironing pressure.
- Soft-touch steam switch and urethane handle for operator comfort.
- Heat-shield between handle and base for added operator safety and comfort.

Essential Data

- Weight: 4kg
- Dimensions (mm): 280 (l) x 165 (d) x 305 (h)
- Voltage: 220V
- Power Output: 1 200W
- Warranty: 6-Months Carry-In
- **FREE** heat-resistant silicone rest.
- **FREE** non-scorching Teflon shoe.
- **FREE** delivery anywhere in South Africa.
